

THE PROJECT IN ACTION!

On January 2016 all partners from "Open the Doors" met in Girona, Catalunya -Spain on the Kick-off meeting, hosted by the Coordinator, the UEC Can Cuní (Associació Educativa Vall del Terri). The purpose of the meeting was to make a strong mutual understanding of the Project and discuss the key elements. The meeting was held at the Education Department of the Catalan Government.

WE'RE ON THE MOVE

The Project is based on learning how to educate on an entrepreneurial mentality and build capacity among young people, professionals and the community. Many dialogues were addressing the meaning and nature of what is called the project's capacity building missions.

Capacity building of institutions, educators and young people are not expected to take place in the classroom - or through theoretical courses prior to the social and practical activities in the communities: the learning, the development of competences, skills and capacity will take place THROUGH taking concrete entrepreneurial community action.

OPEN THE DOORS DIDACTICS

REAL-LIFE LEARNING

NEET prevention educators and youth teams building capacity through engaging in problems and challenges important to the community and the surrounding world

21ST CENTURY LEARNING METHODS IN MIXED REALITIES

NEET prevention educators and youth teams building capacity through fully integrating physical and virtual realities in the work processes, also inviting a linking of local and global

WORKING WITH THE COMMUNITY

NEET prevention educators and youth teams building capacity through creating projects based on identifying community needs and interests and taking action on these needs and interests

CREATIVE TECHNOLOGY

NEET prevention educators and youth teams building capacity through documenting their work and learning processes with creative media and sharing experience through professional, social and gaming networks

BUDAPEST: SECOND PARTNER MEETING

In April we met again in Budapest, Hungary. This was an important milestone to create consensus on the basic principles of the project and to understand the challenges partners face in the implementation. The meeting was held at Tanext Academy. The young people from the school had participated in the preparation of the meeting.
